Hogs—Receipts, 2,000; shipments, 700. Fully as many hogs were received to-day as a week ago, and nearly five times as many as a year ago, but the supply was not a great deal larger than the average at this time in the week. About the usual variety of grades was represented, and the quality was again generally satisfactory. There was very little inquiry from shippers at the start, and, in harmony with the reports from other markets, local packers are rather independent and offering what salesmen considered much lower prices than those prevailing at the close of last week. In fact, the bids were so far below expectations that very few, if any, hogs changed hands at the opening. Later shipppers received a few orders, which they were filling on a basis of about 5c lower prices than Saturday, and after a few loads had changed owners packers took a hand and were inclined to boost the market. The result was that a clearance was made promptly. result was that a clearance was made prompt!

and final sales to packers were reported considerably above their early bids. Different comparisons were made with Saturday, some claiming the market we st 'dy at Saturday's closing prices and others as 10c lower than Saturday morning, but generally it was agreed that there was a decline of 5c compared with the av-erage at the close of last week. Sales ranged from \$6.35 to \$7, but \$6.95 was practically the top, and a very small proportion of the supply sold below \$6.65. Quotations: Good to choice medium to heavy...... Mixed and heavy packing...... Good to choice light weights.... Common to fair light weights... -Representative Sales .-Av. Dk. Pr. No. .. 269 80 \$7.00 | 57.

Sheep-Receipts, 100; shipments none. There was another small run of sheep and lambs to-day, and the true condition of the market could hardly be established by representative sales, but it ly be established by representative sales, but it was the opinion of most dealers that prices were steady compared with those prevailing at the close of last week. There were no good lambs represented, and sales ranged from \$3 to \$4.50. Light sheep sold as high as \$4, and other sales were made as low as \$3.25. The reports from other places were generally favorable, and, therefore, the outlook here for a satisfactory market is at the representation. is rather encouraging. Quotations: Good to choice lambs ..

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIANAPO-LIS, Feb. 2.-Cattle-Receipts, 50; shipments best of each class. All of the inquiry noted comes from local dealers. Common stock is as, hard to dispose of as at any time. Calves are considered a shade stronger, the best being worth \$7@7.50. Quotations:

COMMISSION ROW BENEFITS BY THE CLEAR, MILD WEATHER.

Produce Merchants Not So Busy-New Life in Iron and Steel-The Local Grain Markets.

The week opened with active markets in most lines. Weather conditions were such that on Commission row perishable freights could be handled without trouble or danger of freezing, retail dealers took advantage of the pleasant weather to lay in their week's stock, and the market men, anticipating a good Tuesday market, stocked up heavily. Supplies of fruit and vegetables is so large that commission merchants are making preparations to sell good bills. Produce merchants are not doing as much as a duce merchants are not doing as much as a short time ago. There seems to be a lull in the business. Receipts of poultry are low and demand is not as large as it has been. Prices are well maintained. Butter is in good supply and the tendency is to lower prices. The egg market is weak. Dry goods houses had quite a spurt of business yesterday. There were a number of buyers in town and the traveling salesmen had brought in more orders than in any previous week of the present year. Wholesale grocers had a busy day. Coffees and sugars are moving well, with prices much the same as for some weeks past Trade with the druggists continues large. Business with Av. Dk. Pr. the iron and steel industries is improving. Traveling salesmen started out yesterday in business is looked for during the present week should weather conditions continue

Little Angel of the Slums. New York Tribune.

"Would you be sorry if your mamma was to die?" asked the smallest little girl on the bench as she painstakingly threaded her needle and fell to work on her hem-"Oh, what a silly question!" replied the plump girl with a blue pinafore who sat next to her. "Of course, I should." And she gave a vicious tug at her thread to shake the knot out of it. "Well, I shouldn't be sorry if my father was to die," put in a thin little woman of The others looked shocked and asked

"Oh, he's too fresh," replied the thin girl,

SPECULATION ESPECIALLY ACTIVE IN PENNSYLVANIA SECURITIES.

Both Stocks and Bonds Dealt in Largely-Money Continues Plentiful, Aiding the Speculative Revival.

NEW YORK, Feb. 2.-The stock market showed some improvement to-day over the apathetic conditions of last week, and the volume of dealings rose to more than half a million shares. Complaints from commission houses were unabated, however, of a lack of business, and the market was Bleached Sheetings-Androscoggin L. 7c; Berke-

A very large part of the trading, both in stocks and bonds, centered in the Pennsylvania securities. As the value of the Pennsylvania shares is only \$50, the total shares dealt in should be divided in half to make the showing equivalent to that of other leading stocks. The same is true of Reading shares, which contributed an important part of the day's dealings. Pennsylvania promptly relapsed on the opening sales of 12,000 shares to 150, compared with 151% on Saturday, and hovered about that price all day, with large dealings. The convertible bonds rose 1% at the opening. This seemed to represent an adjustment to the convertible value between the two, in accordance with the notice given by the directors of the anticipation of the conversion privilege by a year. Increased activity in the general market seemed to have no connection with the Pennsylvania movement. The revival of strength in the Erie stocks had a considerable sentimental influence on general speculation. There was no news developed regarding the expected deal for the transfer of the road, but there was some suspicion that the large financial transactions reflected in the clearing-house balances on Friday might have to do with Erie. The strength of Delaware & Hudson was directly associated with that of Erie. There was a current belief that all of the

and the easy tone of call money this morning formed the basis of the attempt to put up prices. To-day's movement was hardly more than tentative, but it was more vigorous and confident than any of the numerous professional tests for some time past. The Venezuelan situation was considered reassuring. There was a good demand for foreign exchange, and it was reported that money has grown so cheap here that bank-ers prefer to remit to pay off maturing for-eign indebtedness. The day's gains were not fully maintained, and the close was rather irregular.

Pennsylvania convertible 31/2s made up the bulk of business in the bond market, and lost a large part of their opening gain Wabash debenture B's became very strong at the last. Total sales, at par value, were \$5,705,000. United States new fours, registered, advanced 14, and the fives, regis-tered, declined 14 on the last call. Following are the day's share sales and the recorded price changes:

SESSION IS NERVOUS, BUT WHEAT

Their Initial Loss. CHICAGO, Feb. 2.-Trading on the Board of Trade was rather dull today in all the pits, and after a nervous session wheat

was 1/6 4c lower, with oats down a fraction. Provisions were easier, closing 21/2@ 121/2c lower. The unexpected firmness of English cables caused a strong opening in wheat, but local traders were inclined to be bearish and had considerable stuff for sale, which carried the price down to 771/60771/4c, after initial sales at 77%c, 4c higher than Saturday's close. The leader of the recent bull movement was a liberal seller, it being reported that in the neighborhood of a million bushels were sold for his account. When the pressure from this source had diminished, the market developed a stronger tendency and May advanced to 78%c, and closed strong at near the top with a gain of 34@3c, at 7844@783c. Commission houses were the best buyers. Large world's shipments, amounting to 8,780,000 bu for the week, a less urgent cash demand and increased primary receipts were bear influences. The amount on passage increased 1,760,000 bu. Clearances of wheat and flour were equal to 363,000 bu. Primary receipts were 790,000 bu against 467,000 bu a year ago. Minneapolis and Duluth reported receipts of 565 cars, which, with local receipts of 55 cars two of contract great receipts of 55 cars two of contract great g of 55 cars, two of contract grade, made

a total of 620 cars, against 1,103 last week and 389 a year ago. Corn ruled dull and featureless and the volume of trade was very light. Opening prices were firm on the strength in wheat and smaller receipts than estimated, but under the influence of free short selling by locals and scattered liquidation by tired holders, the market weakened. The late advance in wheat gave firmness to the situation and the close was about steady with May 1/6 1/4c lower at 44%c, after selling beween 44% @44%c. Receipts were 301 cars, one of contract grade. Nothing of importance developed in tradng in oats and the market was exceeding-

The car shortage was still a drawback in trading. The close was steady with May a shade lower at 36%@36%c, after ranging between 36c and 36%c.
